# OPENING SERMON

Listen up, playas. This ain't your grandma's crypto memo. This is the Pimp Plans — the gospel of how we build the biggest, baddest AI content empire the blockchain's ever seen.

# OPENING SERMON

We ain't here to play small. We ain't here to copy and paste. We here to own the streets of the blockchain. When the other projects fumble the bag, we scoop it up and flip it into gold. When they worried about rugs, we busy building thrones.

Here's the first law of the land:

# EVERY PIMP EATS

Hold PIMP, and the gates swing open. You get access to the VIP galleries, the private links, the stash the outsiders only dream about.

# PIMPS HUSTLE

Some of y'all gon' upload. Some gon' review. Some gon' stake. Some gon' boost. And the real ones? The Kingpins. They sittin' at the top of the table, stacking perks like chips in Vegas.

# PIMP IN UNITY

We build for growth, we build for hype, and we build for the fam.  
Cause a pimp without a crew ain't no pimp at all. When you read these  
pages, don't think of it like some stiff corporate doc.  
Think of it like a manifesto. A game plan. The handbook for  
how to eat good, ride loud, and stack heavy.

# PIMPS CREED

Every empire needs a creed, a code. Ours is simple:

We ain't chasing clout. We ain't chasing hype for the sake of hype. We're chasing dominance. The mission is to build the largest AI-generated content empire on the planet — measured not in whispers, but in uploads, reviews, boosts, and holders who ride with us from day one.

# PIMP MISSION

1. We don't settle for scraps. Every pimp brings volume, but it better shine. Uploads gotta be slick, sharp, and worth bragging about.
2. From the first 30 hustlers who risk it all, to the latecomers stacking steady, every role got rewards. Ain't no weak hands starving here.
3. The site don't close, the galleries don't dry up, and the staking pools don't lock you out. 24/7, the doors swing open for the crew.

# PIMP MISSION

Our creed don't fit on no poster. It lives in the hustle, in the transparency board where every burn, every boost, every buyback gets shown in daylight. It lives in the roadmap milestones, the pimp goals, the empire expansion.

So when somebody asks what Ai Pimps is really about, the answer's simple:

☞ We pimp the content game with AI, we reward the crew, and we grow until the whole damn crypto world can't ignore us.

# PIMP REWARDS

1. Every pimp starts somewhere. Whether you're on stage, backstage, stacking tokens, or backing the show — you eat. Standard rewards are forever. No gimmicks, no cutbacks. Just steady grind.
2.
  - Creators [On-Stage Talent]: Upload AI images that pass the vibe check.
  - 💰 100 PIMP per upload · Max 1,000/day
  - Gatekeepers [Backstage Crew]: Review the work, keep the quality high.
  - 💰 10 PIMP per review · Max 2,000/day
3.
  - Stakers [Bosses & Kingpins]: Lock your tokens, climb the ladder.
  - 🏠 Street 10k · Boss 100k · Kingpin 500k
  - Boosters [Patrons]: Put your money where the art is.
  - 🔑 Lifetime access to 1 favorite model

**STANDARD  
REWARDS**

# PIMP REWARDS

# ANALYSIS

Token price

- \$PIMP price = \$0.005 [Approximately]

Max daily rewards by role

Creators (Wave 1 cap):

- Max 3,000 PIMP/day
- Value =  $3,000 \times \$0.005 = \$15/\text{day}$

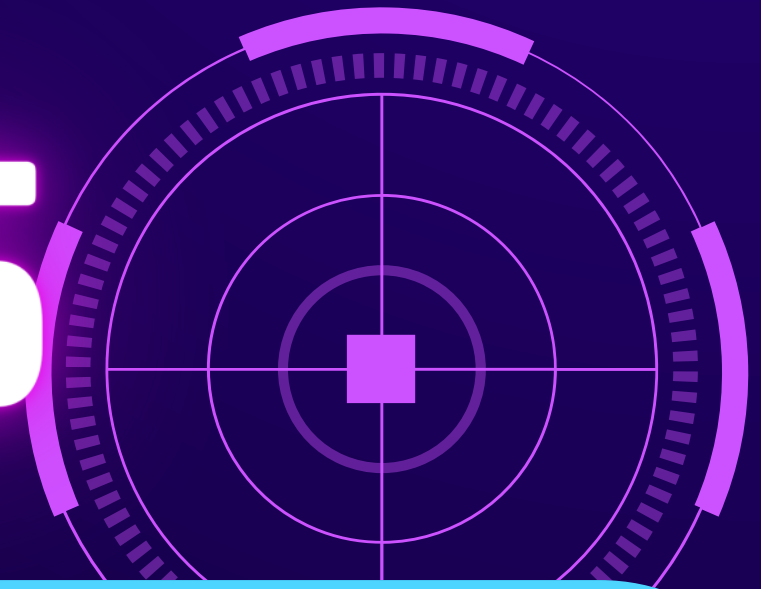

Gatekeepers (Wave 1 cap):

- Max 9,000 PIMP/day
- Value =  $9,000 \times \$0.005 = \$45/\text{day}$

Stakers:

- APR varies [2×, 3×], so daily depends on pool size.
- Their reward is lifetime access, not daily payout, so no direct \$PIMP equivalent.

# ANALYSIS

## Token price

- \$PIMP price = \$0.01 [Approximately]

## Max daily rewards by role

### Creators (Wave 1 cap):

- Max 3,000 PIMP/day
- Value =  $3,000 \times \$0.01 = \$30/\text{day}$

### Gatekeepers (Wave 1 cap):

- Max 9,000 PIMP/day
- Value =  $9,000 \times \$0.01 = \$90/\text{day}$

## Comparison to \$0.005

- At \$0.005 → \$60/day max [per Creator+Gatekeeper combo].
- At \$0.01 → \$120/day max [per Creator+Gatekeeper combo].
- Double the payouts if token price doubles.

# PIMP POINTS

- Everybody Wins
- Creators earn PIMP for uploading content.
- Gatekeepers get rewarded for keeping the gallery clean and high-quality.
- Stakers earn APR and unlock Kingpin perks.
- Boosters lock in lifetime access to their favorite models.
- Holders see their token value climb as the empire grows.
- That's the cycle. Money flows in from the outside world, gets pumped through the system, and feeds every PIMP inside. That's how a true PIMP runs his empire.

# CONCLUSION

## The Streets Are Watching

This ain't just another project with empty promises. Ai Pimps is an empire — built on real content, real rewards, and a system that makes sure everybody eats. We're stacking the largest gallery of high-quality AI content the world has ever seen. Creators get paid. Gatekeepers get rewarded. Stakers rise up the ranks. Holders see their bags pump. And the whole thing runs on a closed-loop hustle fueled by ads, attention, and buybacks.

The mission is simple: flood the streets with content, pump the chart with growth, and make every PIMP proud to be part of the empire.

The streets are watching. The doors are open. The only question left is:  
Are you coming inside, or are you gonna watch from the curb?
